IMPORTANT DISCLAIMERS REGARDING WEB ACTIVITIES:

1. Every effort is made to enter correct data online when creating sample questions and exercises. *However, computer errors and typographical mistakes do occur.* By using these resources, you accept responsibility to verifying the correct responses yourself and you understand that any test questions that happen to be selected for the actual exam and that were wrong online will not be thrown out because of the online error.

2. The online practice questions are an extra help but *are not required to prepare for the exam.* Every activity we do in class results in some paper you can study from later and the textbook is an important source for your study. Students who do not have internet access or who could not access the site because they forgot their access information are still required to take the examination.

3. Although some or all questions that appear online may be selected for the actual exam in some form, questions may appear on the exams which do *not* appear online.
