

# Lin Ad of Hitler

Lin Ad of Hitler was one of the people that was working on the Great Wall of China. But he was sick of working to keep all of the xiongna out. So he went and got people together and goes and kills all of the xiongna that the wall was to keep out. So that he didn't have to build it if all of the xiongna were died. So him and his crew went and attacked all of the people a few at a time. Some people were harder to kill then others. And most of them tried to attack them back but all of them failed. Some of the xiongna got a way for now but they went and found them later. Some of the xiongna were more powerful then others so it took longer to defeat them than others. People were so happy that they voted to stop building the wall so that they had more money for other stuff that they deceded before they built the wall.

# The love of a servant 1

could hear the most beautiful voice I had ever heard. From my dark room I followed the voice until I found my self-standing in front of the princess bedchamber listening just listening. Suddenly I felt that there was some one behind me. And I slowly turned around and there was Qin shihuangdi he had a very angry look on his face. And boy was I scared of what was going to become of me. But he just he just looked at me and then told me to get a move on it and go to the kitchen. I said yes sir. Later that day I was out working in Qin shihuangdi garden. And then I heard the voice again. And I once again followed it until I came to an old wooden door that I had never seen before. I stood there and thought should I go in or should I not. Finally I decided to open the door and I slowly turned the knob and was going to back out when the voice said no please come in do not be afraid. And so I went in and there was the princess I was kind of scared because I knew I servant could get killed if they were caught with a princess. Do not worry he will never know so I went into the dirty and old looking garden room. I was wondering why it looked like this and I by accident said it out loud. Oh do not worry when my mother was alive she loved this garden and kept it really nice and the servant tended to it. But now my father will not let any one near it. So this is what happened to it. Oh that is horrible I think it would be such a nice garden if it could be cleaned up a little bit. Well as the servant and the princess spent more and more time together they started to fall madly in love with one another. They really wanted to get married but both of them knew that her father would

have no part in it. So as the days went on they came up with a plan to run away and get married elsewhere than one day I was in the secret garden when the princess came in we must leave tonight or my father may catch on to what we are planning. Ok we will go tonight. Ok we will meet in the garden and then leave. So I went to the kitchen and got plenty of food and water for the both of us to survive on for a week or so. So finally we were both out in the garden and we were on our way. When we started off we had to go past the start of the great wall. I saw all the men sleep in tents and on the ground. I ask the princess about it and she said that her father was having it made to keep out the xiongnu out of the dynasty. What who are they are you serious you do not know what they are yes I am serious. Well they are a group of people who try and get to others land and steal it. Well we had, been walking for half of forever it seemed they. Well I just found out that the Gobi dessert was huge and it was hot out there and boy was I worried that we would run out of water and food. When there in front of us was a little village and we were invited in and they feed us and gave us plenty of water and also they told us that they had just been given a message that the emperor of the Han dynasty was very ill and near death. The princess started to cry right off and we took our water and food and headed out of there and I talked to her about it and if we were going to return. She said we should return. So we got on the camel that the village had given to us. And in about 5 days we were back at the dynasty and sneaking back to the kingdom and going to the castle. We walked in and we walked towards the emperor's bedchamber and we saw him he was almost dead. And we come up to his bed and he said why are you with that boy..... Umm dad we want to get married. His lost words were no..... but I still love you..... And then he died. When he was buried he was buried with

1,000 soldiers who had 10 different head shape. After the burial the kingdom started to fall because we got very bad leaders for four years and then it fell and we went in to a civil war. But soon in 20~~7~~bc the Han dynasty arose and their emperor let all us stay. And allowed me chin to get married and so we did. And we lived for many years. But then my husband had to go and help build the great wall and he worked there for many years and I brought him food water and warm clothing. One day I was bring things to him and they told me that part of the wall had fallen on him and I cried for along time and because I was so said that I too died 5 days after him.

History Story  
Zhang Lin

Mr. Jones

The sound of the steel sword was hitting off the rock as I sharpened the blade. I heard something out side, so I go look to see who or what it was.

When I got outside, there was a young man walking. I knew it was Cai and then I asked him what he was doing in the Gobi Dessert; He “, Scouting out the area for the war against the Chen dynasty”. He asked what is that sound?” I said “, I’m making weapons and armor for the war”. Then some one came walking up behind me with a knife in his hand. At that moment I didn’t know who it was until he started talking, then I know it was Shin Wong (my mentee) Then I saw Wong walking behind.

While Shin and Cai were talking, I was getting the armor and weapon’s to show Shin. I told Shin that they were the best weapon’s he could find.

I asked him “, what was his job this time”? He said”, to kill Chow- the leader of Liu family. I’m going to get ready for the war”.

I went back into my shop to make more weapons and armor. A couple of hours later the soldiers came for their weapons and armor. Then the soldiers were on there way to war.

Historical Fiction Final Draft

History 9b

I Zhang qi shi, an inspector for the censorate, was on a mission to help Qin Shihuangdi build the Great Wall of China, however Qin left much of the work to me.

You see, it all started after Qin defeated the last of his rivals, and became emperor of the Qin Dynasty. He spoke of a complicated project, building of the Great Wall to keep the Xiongnu out. Being a young and healthy 26 year old male, I offered to help. (that's how I became an inspector) So, I was in charge of making sure that all of Qin's servants did their jobs. Unfortunately, Qin didn't gather any servants to build the wall yet.

I searched the entire dynasty for people to work on the Great Wall, but they all turned me down. I managed to bring back not a single loyal servant.

Finally I gave up and returned to Qin Shihuangdi and begged and pleaded for him to persuade or even force his people to work on his project. But he refused! I was furious, so I left. Not only because Qin refused to help out with his own project, but because I promised Qin I would help him, and that's exactly what I did. I traveled to the Gobi, hoping to find servants to aid Qin in his creation of the Great Wall of China.

I succeeded! And now, I sit here and watch as the servants I rounded up bring Qin's creation come alive.
